

Hooking up with React Native

# iOS

```
- (UIView *) view {  
    return [MaphiView new];  
}
```

# Android

```
override fun createViewInstance(reactContext: ThemedReactContext): MaphiView {  
    return MaphiView()  
}
```

create new views

# Hooking up with React Native

Create new views

iOS

```
- (UIView *) view {  
    return [MaphiView new];  
}
```

Android

```
override fun createViewInstance(reactContext: ThemedReactContext): MaphiView {  
    return MaphiView()  
}
```
